- Internal redecorations, including painting and decorating of walls, ceilings, windows, woodwork and radiators
- Associated repairs
- Other works included gutter cleaning and installation of extractor fans and transfer grills

Contract details

Founded in London in 1973 by three Cambridge University graduates, the MPW Group is one of the best known and well respected independent college brands in the UK. It comprises three fifth- and sixth-form colleges in London, Birmingham and Cambridge, providing highly attractive and modern learning environments located in close proximity to prestigious university campuses.

We were contracted to carry out work for MPW Birmingham by third party consultants Fielding Surveyors. The original contract was to undertake repairs and decorating works to communal hallways throughout the college buildings. This included ceilings, walls, windows, woodwork and radiators. The works took place during the summer months so not disrupt pupils and staff.

The following summer, due to the success of the initial works we had carried out, the college asked us to undertake redecorations and associated repair works to a number of the classrooms at the college. This work included ceilings, walls, radiators and windows and supplementary jobs such as cleaning out gutters and installation of air conditioning units, extractor fans and transfer grills. Again, this work was programmed in with a tight deadline of 1 month, in order to minimise disruption by completing the work during the summer holidays.

Advantages/benefits

- Direct delivery by local dedicated team
- Additional works instructed following completion of initial works to a high standard.
- Project completed within tight timescales, ensuring buildings were completed in time for the start of term
- No disruption to the education calendar particularly summer examination timetable
